Methods and Directions

Tea wine

Lime Solution

- Make an Oleo Saccharum by combining the lime peel with sugar and leaving it overnight.
- The following day, discard the lime peels and add the oily sugar to the rest of the ingredients and mix until everything is dissolved.

Tea Wine

- Infuse the white grape juice with Sencha by adding the tea into the juice and cold-brewing it overnight under refrigeration (min 8 hours).
- Next, in a small pan bring to boil desiccated coconut, passionfruit pulp, Earl Grey tea, filtered water and honey, cover and let infuse for 20 minutes.
- Strain the liquid through a cheesecloth and that is your syrup. Set aside.
- Now, strain the grape juice and Sencha mixture through a cheesecloth into a one liter pitcher.
- Add 100ml of the coconut, passionfruit and Early Grey syrup to it, followed by 90ml of prepared lime solution.
- Give it a few good stirs and serve chilled.
